

Liniar Approved Fabricator

Application form

Date of application

Company name

I hereby apply on behalf of the company above to be granted 'Liniar Approved' status and confirm that I believe the following criteria to be met by our company as at the above date (please tick):

- We have a signed Liniar Supply Contract in place
- We have a written customer dispute resolution system in place and have attached a copy
- We are fully compliant with CE Marking to BS EN 14351

I understand that, if successful, our company will receive a financial rebate, paid as a credit against future sales on an annual basis and calculated at the anniversary date of Approved status being granted. I can confirm that we purchase and use ONLY the following Liniar parts in the manufacture of Liniar windows, doors and roofs:

- | | |
|--|------------|
| <input type="checkbox"/> Steel and aluminium | 2% rebate |
| <input type="checkbox"/> Hardware, mouldings and mechanical components | 10% rebate |

I understand that we will not be penalised if we use a non-Liniar part that Liniar does not manufacture or supply, as long as we have completed the separate 'Non Liniar Part' form and received approval from Liniar that it makes commercial sense for us to use such parts.

I confirm that we will be notified by letter of the outcome and if unsuccessful must wait for 6 months before reapplying to become an Approved Fabricator. I understand that Liniar reserves the right to remove our Approved status and any associated rebate at any time if the terms set out in the confirmation letter are not adhered to. I also understand that the rebates are subject to change and will be reviewed annually.

Signed on behalf of the company above:
